

For questions and requirements to get power to your property here is a link that should help with all your questions.

RockyMountainPower.net

Click on “Builders and Contractors”

Then click on “Developer and New Services Checklist”

This is a checklist if you are going to bring power to your lot.

Click on “Builders and Contractors” and you can scroll down and click on a link called “line Extension Estimator” to get an estimate on the cost of your power.

Click on “Builders and Contractors” scroll down and click on “Review Requirements” to review things such as box placement, service conduit requirements, trench and backfill requirements, ect.

If you have any questions you can call:

Rocky Mountain Power 1-800-469-3981 with any questions.

Always remember that a Bannock County building permit is required before any work can begin.
